

FORREST R. MONROE, M.D.

Shasta Ortho
1255 Liberty Street
Redding, CA 96001
530-246-2467

OBJECTIVES AND HIGHLIGHTS

- Seeking a pain management practice with growth potential, where I can utilize my cutting-edge training and strong interpersonal skills to deliver the best available care.
- Calm demeanor, excellent problem-solving skills, with organizational improvement and leadership experience. Able to rapidly build rapport and communicate clearly to patients and colleagues.
- Training in one of the highest volume fellowships in the country. In addition to an overall volume of around 2,000 procedures, last year's fellows averaged over 20 intrathecal pump implantations and 45 spinal cord stimulator implantations and performed advanced interventions such as kyphoplasty, DRG stimulation, and MILD procedure.
- Broad clinical and procedural experience, from back pain to intractable cancer pain, CRPS, and hereditary disorders. Will arrive ready to start in a busy private practice environment. Available to start July 2018.

EXPERIENCE AND EDUCATION

- Multidisciplinary Pain Management Fellowship – University of Kansas Health System, 2017-2018
