

NORTHERN CALIFORNIA Reconstructive Foot & Ankle FELLOWSHIP

PROGRAM SUMMARY

At Northern California Reconstructive Foot & Ankle Fellowship, the fellow will be exposed to a high-volume reconstructive foot and ankle practice, with a strong emphasis on total ankle arthroplasty and rearfoot/ankle reconstruction. There is significant exposure to foot and ankle trauma and sports medicine, as well. The fellow will also learn how to integrate into a large, busy orthopaedic practice. The fellow will be expected to become proficient in all facets of foot and ankle surgery, as well as being able to manage a busy foot and ankle clinic. There will be ample exposure to surgical and office billing, allowing for a complete, well-rounded fellowship experience.
